

### Meeting 3 - Chet. 4 - 8/4/24

Q1 { how important is your name to you → what do you think people think/feel when they hear your name

- ↳ Everyone's hope is that it's a positive → maybe feel like I'd like to be taken more seriously
- ↳ providers for family → looking toward who we want to become; being a man is striving towards who you want to become
- ↳ name is your reputation → actively seek to maintain better
- ↳ your name precedes you → regret/neg. perception, bc we believe that or we perceive others to think that
- ↳ going through hard stuff w/ guys that are 'better' than you → helps you become a better man

Q2 { do you think you are limiting yourself through the identity you/world has chosen for you?

- ↳ Δ Himself for the image Δ, how much are you / just for yourself
- ↳ working on / recognizing your true identity for real growth
- ↳ men always having ideals thrown at you - putting the bar so low and claiming poor beh. for us → cynical + embarrassed to be yourself
- ↳ nobody's perfect - why not strive for it though?
- ↳ don't let it inhibit you bc you set the standard - tone for yourself
- ↳ let your environment dictate who you are - life is all about exp.
- ↳ build identity through your experience

Q3 { based solely on my actions - what do I believe about reality?

- ↳ actions speak louder than words → families everything
- ↳ our actions make our reality what we want it to be - regardless of difficulty we have to strive to build our reality
- ↳ willing to put in the work to build your reality, regardless of setbacks/hardship
- ↳ it's not a solo race - work on stuff for yourself but lean on your guys

- Q4: When having cognitive dissonance is it easier to  $\Delta$  attitude or behavior
- easier in moment of weakness to  $\Delta$  attitude to something easier to digest → however, should be  $\Delta$ ing negative or hurtful behaviors in order to be in line w/ your beliefs/attitude
  - attitude can be down but  $\Delta$  beh. is easier to exteriorly be positive
    - interior thoughts ↓ but make the decision to have pos. beh.
  - beh. easier to  $\Delta$  - when you are the leader, regardless of attitude you gotta do what you gotta do
  - somethings you can always control are your attitude and your actions
  - attitude easier to  $\Delta$ , fake it until you make it → ↑ beneficial to have a better beh.
  - tried to  $\Delta$  beh. while still having ↓ attitude → never gonna grow b/c you are locked into that negative attitude
  - $\Delta$  beh might be easier in the short-term, if  $\Delta$  attitude you gotta fully believe
